Tel. 431-7111

PLANNING BOARD

3rd Thursday

Town Office 7:30 P.M.

BOARD OF ADJUSTMENT

By request

Under the Laws of 1977, Chapter 231, Assessors are required to insist upon a completed, annual property inventory form and to impose a mandatory penalty for failure to file one by April 15th, of each year. Any person who fails to file an inventory by April 15th, unless granted an extension under RSA 74:8, shall pay a penalty of 1% of the property tax, but in no case less than \$10.00 nor more than \$50.00. Any person failing to file and becoming liable for a penalty shall lose the right to appeal any property tax matter or claim exemption. The penalty has all the force of taxation and shall be treated as incident to the tax.

1459 This figure includes 695 gifts and 764 purchases.

Highlights of the year include adding the position of Children's Room Aide; joining the AESOP audiovisual cooperative; standardizing the card catalogue; instituting a "Good book to read" collection and increasing the number of story hours. The Friends of the Library held their renowned Book Bake and Plant Sale and with some of the proceeds bought a record player with headsets, and a cassette recorder for the library. The Trustees have met monthly. These meetings are open to all and the minutes of each meeting are available at the library for all to read. Trustees meet Wednesday mornings at 10 AM at the library.

Books as memorials have been added to our collection in the names of Suzanne Thompson, Sherry Beck and Rita Lewis.

We have received donations from the following persons: Mary Lew Porter, Evelin Sammel, Barbara Schools, Ruth Hartford, Vera Galle, Cynthia Guibord, Felicia Rugg, Phillips Exeter Academy, Exeter Public Library, Senator Rudman, L. W. Dannis, Archie Molleur and Colonel Batchelder.

REPORT OF THE BOARD OF SELECTMEN

1981 was a relatively quiet year in conducting the town's business. We expect that the lack of development and construction in the town due to the high cost of borrowing contributed to the quiet atmosphere.

The two new police cruisers were received during mid summer. The sophisticated roof lights and P. A. systems were a generous gift from Nike shoe and provided Herb Wilson and others with hours and hours of fun while performing the electrical installation.

The refuse-to-energy plant at the University of New Hampshire has now been on line for over 2 years, a report of that facility is located elsewhere in this book.

The town received four acres more or less of salt marsh (Tax map R15 Lot 21) having been in the Brackett family since 1821 and has been given by John R. Brackett in memory of his grandfather John Henry Brackett (1838 - 1928) who served the Town of Greenland at different times as Selectman, town treasurer, and assessor.

Erick Berg as part of an Eagle Scout project presented the town with a fine weather-proof bulletin board which Erick and some of his scouting friends have installed at the town complex.

We look forward to seeing you on Tuesday, March 9th, 1982, between the hours of 10 AM and 6 PM, when the polls will be open for town and school balloting, and on Thursday, March 11th at 8 PM, when the remaining warrant articles will be presented for your decisions.

Your Board of Selectmen

REPORT OF THE PLANNING BOARD

The year 1981 like 1980 was a year presenting a minimum of activity for planning board consideration. The board conducted twelve regularly scheduled meetings and one special meeting. During the year requests were received for one subdivision, five site review situations, and six occupancy use permits.

There were only 42 building permits for residential structures requested during the year. Again as was the case last year we assume that the extreme high cost of borrowing money for construction purposes is responsible for the lack of activity.

The board received no petition request for changes to the town's building regulations and zoning ordinance.

The planning board is presenting seven proposed changes to the town's building regulations and zoning ordinance, which will appear in ballot form on town meeting day.

Following are explanations of the proposed amendments to the town's zoning ordinance and building regulations:

- I. A sentence added to the town's mobile home ordinance which hopefully will put the existing ordinance in compliance with the state legislature's ambiguous manufactured housing law.
- II. A phrase added to the town's ordinance concerning lot frontage in the residential zone. Presently the ordinance states that a building lot shall have 200 feet of frontage. The planning board feels that it should be included that the frontage will be on a town maintained road or state highway.
- III. A phrase added to the town's ordinance concerning lot frontage in the commercial zone. This proposed amendment is for the same purpose as that explained in II above.
- IV. A proposed addition to the area of the Industrial district beginning at a point behind the Nike warehouse running perpendicular to Route 195 to the Portsmouth city line.
- V. Addition of the word condominium and reference to condominium ownership in the appropriate places to make the town's zoning ordinance conform to state statutes.

It has recently come to the attention of the planning board that during the 1978 session the state legislature enacted a very comprehensive statute concerning condominium ownership. Proposed amendment No. V is necessary to bring the town's zoning ordinance into conformance with the statute.

- VI. A proposed amendment to the town's zoning ordinance presented to the planning board by the board of Selectmen which would allow a privately owned depository for the purpose of disposal of stumps, brush, and demolition material.

VII. Addition of the word condominium and reference to condominium ownership in the appropriate places to make the town's building regulations conform to state statute. This proposed amendment is for the same purpose as that explained in V above.

All of the above proposed amendments with the exception of No. VI are presented to the voters with the recommendation of the planning board. Proposed amendment No. VI is presented without planning board recommendation.

We urge all voters to exercise their right to vote on Tuesday, March 9th, 1982, between the hours of 10 AM and 6 PM; and to attend the business portion of the town meeting to convene at 8 PM on Thursday, March 11th, 1982.

POLICE DEPARTMENT

The year 1981 saw the Police Department get settled in our new facility with the space and security that has long been needed. Many businesses have assisted in furnishing the office with a desk, chairs, files, uniform lockers, etc. all of which was greatly appreciated and save from having to ask for appropriations for the same.

Following the approval of town meeting, two new cruisers were purchased, replacing the 1975 and 1977 cars. These new vehicles are a little smaller and more economical to operate and as of yet show little or no need of repair.

In October a new officer joined the department, following the departure of an officer to another field. The new patrolman is Richard E. Davis, Jr. of Dover. Rick's prior lawenforcement experience has been with the Lee, NH, Police Department and the US Army Law Enforcement Command, Fort Carson, Colorado. Rick will be attending the NH Police Academy for eight weeks starting in March. Upon completion of the academy, in addition to his regular duties, Rick will handle all juvenile investigations within the department.

In relation to juveniles, the department has put together a program entitled, "A Reason For Tears", informing parents of drug abuse among youngsters. This program is not intended to aid parents in "catching" their youngster, but rather a means of communication between parent and youngster and making the entire family aware of the pitfalls of experimenting with drugs. The department will be prepared to present this program to any interested group. You are asked to contact the Department for further information or to schedule a presentation.

The department has realized a large number of false burglas alarms over the past year. Most of these are due to faulty systems, accidental activations, or un-awareness of the system operation. For these reasons I am requesting that all additional systems installed first be approved by the department prior to installation. Applications for this approval may be obtained from the Police Department. The department answered 217 alarms last year, all of them false, (fortunately), although each must be answered as if they were the "real thing". Perhaps the requirement of registering with the department may prevent a few of these next year.

The number of burglaries hasn't changed much from last year. We could find fifty people to give us reasons why they occur, but nevertheless they are occurring and it has to be a joint effort between all of us if we are to slow them down at all. One way is to be a "Nosey Neighbor", being aware of what is happening around your neighborhood. Taking note of suspicious vehicles or people in the area and reporting it. It's better to call and have the

the situation checked than to read in the next day's paper that your neighbor's home was robbed.

REPORT OF THE FIRE DEPARTMENT 1981

Emergency calls to the Fire Department continued to increase in 1981, with a total of 156 being received for the year. This compares to 123 received in 1980. Listed below is a breakdown of the calls for 1981 and a comparison to 1980:

	1981	1980
1. Mutual Aid	17	6
2. Investigations	3	7
3. Structures	3	3
4. Medical Aid	37	13
5. Grass	6	9
6. Woods/Brush	12	15
7. False Alarm Accidental	21	7
8. False Alarm Malicious	2	1
9. Power Lines	6	8
10. Town Dump	6	3
11. Dryer	0	1
12. Stove	1	4
13. Chimney	13	14
14. Vehicle Fire	8	9
15. Vehicle Accident	10	8
16. Furnace	0	0
17. Controlled Burning	1	3
18. Gas Leak/Spill	1	3
19. Flooded Cellar	0	1
20. Lost Person	0	0
21. Station Standby	0	0
22. Miscellaneous	9	8
	156	123

Three serious structure fires occurred during the year. Total value of the property involved was approximately \$210,000 with an approximate loss of \$75,000. One of these fires was the result of arson, a problem that continues to plague the seacoast. As reported last year, we have continued to have numerous fires set in wooded areas. One of these required mutual aid from five departments before being brought under control.

An approximate total of 3000 manhours were spent in response to emergency calls. Another 2000 manhours were spent in meetings, drills and servicing equipment by the members of the department. To new residents of the community, I would emphasize that members of the department receive no compensation and that the manhours involved are all volunteered.

The Emergency Medical Service has continued to grow and be used by the citizens of the community. In 1981, we were able to enter into a mutual aid agreement with Newington for the use of their ambulance. The EMS personnel of both the Greenland and Newington Fire Departments have worked extremely well together to provide what I feel is the best emergency medical care the town has ever had available. In 1981 the Newington Fire Department purchased a new ambulance. They have offered to give the Town of Greenland the older unit and an article appears in this years' Town Warrant to authorize acceptance and expend the necessary monies to operate it. The ambulance is currently housed in the Greenland Fire Station and all citizens are welcome at any time to come and see this vehicle. I personally believe this is a unique opportunity for the town to insure fast and dependable medical care for the coming years. The Greenland Department now has 18 Emergency Medical Technicians and 6 Advanced First Aid personnel trained and all are certified by the State of N. H. to operate the ambulance.

Another Warrant article deals with a generator for the fire station. With the increased activities of the department we must have back-up power available in emergencies to keep the fire station in operation.

During the past year, we have tried to increase our inspection program in the area of woodstoves. I urge anyone with a question to please call and we will be more than glad to offer assistance.

The State of N. H. signed into law in 1981, legislation making smoke detectors mandatory in all new homes, or homes being extensively remodeled, before they can be occupied. Again, if anyone has questions regarding detectors, please call. A smoke detector is probably the cheapest investment you can make to protect the lives of your family and I would urge everyone to install them, if you haven't already done so.

During the past year, the members of the department and the Ladies Auxiliary expended approximately \$2,000 of their own monies in various projects to provide additional equipment for the department. This included the purchase of a "Cold Water Rescue Suit", radio pagers, and the refurbishing and painting of a pick-up truck procured from the State Forestry Department.

I wish to extend my thanks to the Ladies Auxiliary for their continued support and also to the businesses and citizens of the community who have so graciously provided donations throughout the year.

I would also like to publicly thank and give recognition to the members of the department for their efforts during the past year. Only through the dedication of these people can the fire department operate and provide protection to the community in all types of emergencies. At a time in our society when many do not want to be involved, the community should be proud of the commitment that these men and women have made in giving of their time and talents.

Greenland Vol. Fire Dept.

REPORT OF THE CIVIL DEFENSE DIRECTOR 1981

Throughout 1981 the Civil Defense news making headlines concerned the Seabrook Power Plant and Crises relocation. Although these are certainly important things to be dealt with, until concrete decisions are made at state and Federal levels there is little we at the local level can do. Therefore, the main thrust of Civil Defense, or Civil Preparedness as it will now be known, as far as Greenland is concerned, is to continue to develop effective plans for handling the numerous natural or man-made disasters that could affect the community.

We still need people interested in helping out in such situations. Anyone interested may leave their name at the Town Office or contact me directly.

/s/ Kenneth N. Fernald
Civil Defense Director

HEALTH OFFICERS REPORT 1981

Problems investigated and resolved by your Health Officer, during 1981, involved stream pollution, poultry complaints, contaminated water systems and defective sewage systems. There were also rubbish problems and one complaint about unsanitary housing. In the event you have health or safety problems, please call 431-5122.

/s/ Wallace S. Berg
Health Officer

REPORT OF THE FOREST FIRE WARDEN

All open burning when the ground is not covered with snow is controlled by the Town Forest Fire Warden in cooperation with the New Hampshire Forest Fire Service. Anyone wishing to kindle a fire out-of-doors when the ground is not covered with snow must have a written permit signed by the Town Forest Fire Warden. If the fire is to be kindled on land not owned by the person kindling the fire then he must have the permission of the landowner. No outdoor fires can be kindled between 9 AM and 5 PM unless it is raining, without the additional approval of the Forest Ranger. The following rules and guide lines are provided for your information:

1. Prior to burning secure a burning permit from your Forest Fire Warden, in Greenland, call Mr. Roy Chisholm at 436-4299. Remember state law requires that you obtain a permit prior to burning.
2. Once permit is obtained and in hand, you are responsible to properly supervise your burning. Don't repeat don't leave your burning unsupervised.
3. Make certain that matches, cigars and cigarettes are out when discarded especially in forest areas. Additionally, and fun/recreational vehicles users should use their ash trays, and insure that when vehicle is parked proper kick stands are used if so equipped otherwise users should insure that the vehicle has cooled off before laying it down.
4. Please, no burning until after 5 PM and make sure that your fire be it camp or debris is dead out prior to leaving it.

of fires in 1981 were 20.

Roy H. Chisholm
Forest Fire Warden
Greenland, NH

REPORT OF MOSQUITO CONTROL COMMISSION

The 1981 program included control of the "spring" freshwater and summer saltmarsh mosquitos. Several chemical control agents were integrated with various biological and cultural methods to assure control of larval mosquitos, which are found in stagnant waters. A fish predator proved effective in naturally controlling salt-marsh mosquito larva found in stagnant pools of high marsh areas and was used as a control agent.

Various surveillance methods were used to determine effectiveness of control materials and population densities of the mosquitos. Identification of larval and adult specimens were documented and aided in identifying various specific breeding areas of the major pest species.

The program was regulated by the State Pesticide Board, which is also a branch of the Environmental Protection Agency. They inspected our chemical application procedures and our chemical storage facilities to assure safety precautions were being completed.

**TOWN WARRANT
TOWN BUDGET**

TOWN WARRANT 1982
The State of New Hampshire

To the inhabitants of the Town of Greenland in the County of Rockingham in said State, qualified to vote in Town affairs:

You are hereby notified to meet at Greenland Central School in said Greenland on Tuesday, the ninth day of March, next at ten of the clock in the forenoon to act upon the following subjects:

ARTICLE 1. To chose all necessary Town Officers for the year ensuing and to cast your ballot on the following questions:

- A. Are you in favor of adoption of Amendment No. 1 as proposed by the planning board for the town zoning ordinance as follows:

Article VII - Auto trailer, tourist camp park sites, and mobile home parks.

To add to this Article a new paragraph #6 which would state the following:

"The owner of any mobile home park constructed in conformance with the regulations of Article VII shall set aside and make available for sale to private ownership a minimum of (50%) fifty percent of the lots developed."

Recommended by the Planning Board

- B. Are you in favor of adoption of Amendment No. 2 as proposed by the planning board for the town zoning ordinance as follows:

Article IV - Residential district paragraph 8, dealing with lot frontage.

Add the following words: (After the word "Frontage" therein)

On a town accepted and maintained road or state highway.

Recommended by the Planning Board

Are you in favor of adoption of Amendment No. 3 as proposed by the planning board for the town zoning ordinance as follows:

Article V - Commercial district

Paragraph 3 dealing with lot frontage.

Add the following words: (After the word "Frontage" therein)
On a town accepted and maintained road or state highway.

Recommended by the Planning Board

- D. Are you in favor of the adoption of Amendment No. 4 as proposed by the planning board for the town zoning ordinance as follows:

Amend Appendix, Zone Three, Industrial District, to read as follows:

"It shall include all lands within the following bounds: Beginning at the junction of Route 101 and the Greenland Town Line, Northerly by the Town Line to a point 500 feet South of the centerline of Portsmouth Avenue and parallel to Portsmouth Avenue to the centerline of Pickering Brook, thence by the centerline of Pickering Brook Easterly to the junction with the Easterly limit of Route 101 right-of-way, thence South along said Easterly side of Route 101 to a point which is 5150 feet from the junction of the Boston and Maine Railroad centerline and the Easterly Town Line, thence by an arc of radius 5150 feet from said point to the Easterly sideline of the New Hampshire Turnpike - Route 95 right-of-way, thence South Southeasterly along the Easterly sideline of the New Hampshire Turnpike - Route 95 right-of-way to a brook which is 3300 feet South of the intersection of the Southerly sideline of Ocean Road and the New Hampshire Turnpike - Route 95 right-of-way, thence running perpendicular to the Easterly sideline of the New Hampshire Turnpike - Route 95 right-of-way to the Portsmouth-Greenland Town Line, thence by the Easterly Town Line to the point of beginning.

Recommended by the Planning Board

- E. Are you in favor of the adoption of Amendment No. 5 as proposed by the planning board for the town zoning ordinance as follows:

- A. Amend Article III, Definitions, by making the following additions and insertions therein:

1. Add new definition "L" to read as follows:

"L. Condominiums means any conversion or development of land or existing structure(s) or new structure(s) into more than one separately owned, leased, or time-shared sites or units for human use, residency or occupancy and this definition shall be deemed to incorporate the condominium definitions of RSA Chapter 356-B, Section 3, subsections V through XI and sections XXVII through XXX for the purposes of this zoning ordinance."

B. Amend Article IV, Residential District, by making the following additions and insertions therein:

1. Amend section 2 by adding a new sentence thereto to read:

"Condominiums housing no more than two families or residence units shall be permitted use in this district, provided such condominiums satisfies the applicable zoning, building and subdivision requirements.

2. Amend section 8 by adding a new sentence to read:

"Minimum lot size and frontage requirements shall be the same for condominiums.

3. Amend section 10 by deleting the number (12) after the words (Article IV, paragraph) and in its place insert the number (11) to read: No mobile home, motel, hotel or other similar structure shall be permitted in any residential district except as provided in Article IV, paragraph (11) below.

C. Amend Article IV-A, Growth Limitation Controls, by making the following addition thereto:

1. Amend section A by adding sentence to read:

"Condominium units shall be deemed equivalent to dwelling units for the purposes of this section."

D. Amend Article V Commercial District by making the following additions and insertions thereto:

1. Amend Article V by inserting at the beginning of paragraph (B) the words condominium housing, to read: Condominium housing, lodging houses, apartment houses, hotels, including such retail businesses within these permitted buildings as are conducted for the convenience of the residents or guests provided that:
2. Amend Article V, paragraph (B2) by deleting the number (9) after the words (Article IV) and in its place inserting the number (8) to read: Lot size and frontage - the minimum lot size and frontage shall be that provided in Article IV, 8 above plus 10,000 additional square feet of lot area for each additional dwelling unit over one.

Recommended by the Planning Board

F. Are you in favor of the adoption of Amendment No. 6 as proposed by the planning board for the town zoning ordinance as follows:

1. Amend Article XIX, out of town refuse, by numbering the existing paragraph to be section 1 and adding to section 1 the following; except that which is in conformance with section (2) of this article.
2. Add new section (2) to read: " Commercial sites for the purpose of disposing of stumps, brush, and demolition material."

A. Application: The requirements of this section apply only to those sites to receive stumps, brush, and demolition materials, for purposes of disposal or the like conducted as commercial disposal sites.

B. Permit Required: No person shall hereafter open or extend the use of any disposal site, or the like, without first obtaining from the planning board a written permit.

1. Hearing: Upon receiving a request for permit in compliance with the requirements hereinafter set forth, the planning board shall set the matter for public hearing on a date no less than eight (8) nor more than thirty (30) days after receipt of such request by the board. Notice of the hearing shall be mailed, postage prepaid, return receipt requested to the applicant at his address as shown on the request not less than eight (8) days before the date set for hearing. Notice shall be published once in a newspaper having circulation within the town, which publication shall be not less than seven (7) days before the date set for said hearing. Such notice shall also be posted continuously during such seven (7) day period in not less than two (2) conspicuous public places in the town.

2. Decision: Within three (3) weeks after the hearing the planning board shall grant a permit, or in writing deny the request.

C. Permit Conditions: Such permits may be granted by the planning board in the exercise of its sound discretion having regard to any possible consequences detrimental or injurious to the neighborhood or to the town. No such permit shall cover a period of more than one year for actual disposal operations. Unless a given permit is consecutively renewed, the permittee shall be allowed an additional consecutive six month period in which to comply with clean-up and rehabilitation requirements. No such permit shall be transferable or

assignable. Each such permit shall be conditioned upon leaving the disposal site in good condition and not dangerous, and may include such other conditions as the board in its sound discretion may deem necessary to the future well-being of the town and to insure compliance with the provisions of this ordinance.

- D. Request for Permit: The request for the permit shall be in writing and signed by the title owner for the property upon which disposal is requested to take place and must include:
1. A detailed written statement of the proposed work, and the condition in which the area will be left upon expiration of the permit.
 2. A plan or map prepared by a professional engineer registered in New Hampshire to a minimum scale 1"=50 ft, showing the boundary line of the property, the present names of abutters, the bounds of the area upon which it is proposed to work for the duration of the requested permit, and the locations of all manmade features, vegetative cover, topography by five-foot contour intervals, public roads, access routes, brooks and waterways passing through the property and within a distance of 50 feet outside the total contiguous area owned by the applicant.
 3. Said plan or map shall also show:
 - A. Temporary and permanent drainage and the proposed topography at two-foot contour intervals upon completion of the filling.
 - B. The established quantity of loam or topsoil to be stripped, stockpiled, and replaced.
 4. A report certified by a professional engineer registered in New Hampshire showing:
 - A. The elevation of the highest ground water table existing at the location in question before commencement of disposal operations.
- E. Bond: The person requesting such a permit shall furnish a bond binding both the owner and the operator of the disposal site and made out to the Town of Greenland in a minimum amount of \$1,000 per acre to insure compliance with the requirements of this ordinance as well as the requirements contained in the permit. The applicant must be the title owner of the disposal site, and the performance of the conditions of the permit shall constitute a lien on the property.

- F. Fees: The request for a permit shall be accompanied by the appropriate fee, to enure to the general funds of the Town. The fee for each initial permit shall be \$10.00 per acre covered by the permit, but not less than \$50.00 total. The fee for each renewal permit shall be \$5.00 per acre covered by such renewal permit. If the request is denied, the fee shall be remitted less any actual costs to the Town for investigation or processing.
- G. Tax Statement: The request for a permit shall be accompanied by a written statement from the tax collector, Town of Greenland, that all current taxes levied against the property have been paid in full and that there are no tax liens encumbering such property.
- H. Application and Renewal: Where the entire area covered by a permit has not been filled by the time such permit expires, such permit may upon application by the permittee at least six weeks before expiration of the permit, be renewed by the board in the exercise of its sound discretion for one year at a time, consecutive with the last previous permit. Failing a consecutive renewal, however, or if there has been no application for a consecutive renewal at least six weeks before expiration of the last effective permit, then the board may have a period of six weeks from the date of actually receiving an application for renewal in which to consider and decide upon such application.
- I. Prerequisites and Renewal: Renewal of permits shall be contingent upon compliance with all requirements of this ordinance and of any previously issued permit. Non-compliance with previous permit requirements or requirements of this ordinance or of any other applicable laws shall be sufficient indication of unsatisfactory performance for the planning board, in the exercise of their sound discretion, to deny a renewal request.
- J. Inspection: The building inspector, the health inspector, the planning board, the selectmen, and the fire warden shall have the right to enter and inspect at any time the premises authorized by the permit. It shall be the responsibility of the building inspector to inform the Selectmen promptly of any non-conformance with the requirements of any applicable laws, ordinances, or requirements of the authorizing permit.
- K. Violation: The Board of Selectmen may, upon any well-founded information of violation of any provisions of this ordinance or of any permit issued hereunder or of any other applicable laws, revoke such permit for a period of two weeks provided

a public hearing is held not less than 8 nor more than 14 days after written notice of such revocation is mailed as required below. Such revocation shall be effective immediately upon any actual notice to the permittee or upon delivery of the written notice specified below, whichever is the earlier, provided, nevertheless, that written notice must be sent to the permittee by registered mail, postage prepaid, return receipt requested to the last known address of the permittee and that such notice shall be published once in a newspaper having a circulation within the town, which publication shall be not less than 7 days before the date set for the hearing. Such notice shall also be posted continuously during such 7 day period in not less than two conspicuous public places in the town. Following such hearing the Selectmen may in the exercise of their sound discretion and on such terms as they deem to be in the best interests of the town continue the revocation or reinstate the permit.

Beginning Topography:

- L. Depth of Excavation: The topography of the disposal site prior to operation shall be a minimum of four feet above the highest ground water table existing at the location in question.
- M. Lateral Clearance: No disposal shall be permitted less than twenty feet from any lot line or from the nearest edge of any public road.
- N. Recovering: All land used as a disposal site shall be covered with three (3) inches of topsoil originally removed, and seeded with suitable covercrops approved by the planning board or specified in the permit, and suitably mulched with mulch hay in sufficient amount to prevent erosion.
- O. Slopes: No slope shall be left steeper than a ratio of two horizontal units of measurement to one vertical unit of measurement and the slopes shall be maintained at said two to one ratio during the progress of the work. The purpose of this provision is: that the proper grading of the slopes to prevent erosion shall be accomplished properly in a planned progressive manner as the area is being filled and not left to be done at some indefinite time in the future when filling may have ceased, and to ensure a slope on which topsoil will remain after being replaced until vegetation can take root and permanently hold the topsoil in place.
- P. Drainage: Proper drainage of the filled area shall be provided at all time.

- Q. Erosion and Pollution: No disposal site shall be left in such condition that erosion of it after completion of work may result in water pollution by silt or other deleterious substances.
- R. Screening by Vegetation: Any vegetation which screens the area of filling from roadways and views of adjacent property owners shall be replaced upon completion of the operation and shall be maintained until such time as suitable cover crops have matured.
- S. Dust: Roads and access routes leading to and from authorized area shall be wetted down or spread with calcium chloride as frequently as necessary in order to eliminate dust nuisance to any resident of the town.
- T. Any disposal site as described in this article shall be selected and operated in conformance with the regulations of the Bureau of Solid Waste Management, Division of the State of New Hampshire, Department of Health.
- U. Appeals: Any resident of the Town of Greenland aggrieved by a decision of the planning board under this article may take an appeal to the Board of Adjustment, which shall give notice in the same manner as provided in section B. 1. above, shall hold a public hearing, and shall thereafter within three (3) weeks render its decision in writing.

NOT Recommended by the Planning Board

- G. Are you in favor of the adoption of Amendment No. 1 as proposed by the planning board for the town building regulations as follows:
 - A. Amend building regulations, Town of Greenland, NH, by making the following additions and insertions therein:
 - 1. Insert in section #1, after the word "buildings" in each of the four places it appears therein the word "Condominiums", so that in each case, as amended, it will read: "Buildings, Condominiums, ---".
 - 2. Insert in section #2, after the word "building" in each of the four places it appears therein the words "or condominium", so that in each case, as amended, it will read: "Building, or condominium ---".
 - 3. Amend section #6 by making following additions and insertions therein, namely:
 - (A) Insert in subsection (A) an added sentence to read: "Condominiums shall be deemed commercial buildings for the purposes of this section".

- (B) Insert in subsection (B) after the word "building" the words "or condominium", and further insert after the words "designed for" the words "any multiple unit residential or for"--.
- (C) Insert in subsection (C) after the opening words "no public" the words "or condominium".
- (D) Add a new sentence to subsection (E) to read:
"every condominium unit shall have a minimum total floor area of six hundred square feet".
- (E) Amend subsection (F) by adding after word "dwellings" the word "condominiums".

Recommended by the Planning Board

The polls will open at 10:00 AM and will close no earlier than 6 :00 PM to cast your ballots on Article 1.

ARTICLE 2. To hear the report of the Town Clerk on the results of your ballot in the election of Town Officers and the disposition of questions on referendum.

Discussion and action on other Articles in the warrant will take place at Greenland Central School on Thursday, March 11, 1982, in evening beginning at 8:00 PM.

ARTICLE 3. To fix the salaries of the Town Officers and to raise and appropriate the estimated sum of \$18,720 in payment of salaries and commissions.

Recommended by the Budget Committee

ARTICLE 4. To raise and appropriate the sum of money necessary to defray town charges for the ensuing year. The estimated amount for town charges is \$354,242.

Recommended by the Budget Committee

ARTICLE 5. To see if the Town will vote to authorize the Selectmen to grant a discount on the payment of property taxes. The discount rate to be 3% if paid within 14 days and 1% if paid within 30 days of postmark of the tax bill.

ARTICLE 6. To see if the Town will vote to authorize the withdrawal of \$15,369.16 from the Revenue Sharing Fund for the purpose of paying the principal and interest on the 1982 serial note issued for the purchase of the fire truck.

Recommended by the Budget Committee

ARTICLE 7. To see if the Town will vote to authorize the Selectmen to borrow money on short term notes in anticipation of taxes.

ARTICLE 8. To see if the Town will vote to raise and appropriate the sum of \$18,500 for the purpose of resurfacing Palm Drive and Willowbrook Avenue with Bituminous Concrete.

ARTICLE 9. To see if the Town will vote to raise and appropriate a sum not to exceed \$59,000 for the purpose of constructing a highway building.

Recommended by the Budget Committee

ARTICLE 10. To see if the Town will vote to create and fund, in the amount of \$25,000, a Capital Reserve Fund for the purpose of constructing a highway building.

Note: This article will be withdrawn if Article 9 has been approved by the Town.

Recommended by the Budget Committee

ARTICLE 11. To see if the Town will vote to raise and appropriate the sum of \$1,945 for the purpose of purchasing, insuring and dispatching an ambulance

Recommended by the Budget Committee

ARTICLE 12. To see if the Town will vote to authorize the Selectmen, Road Agent and Planning Board Chairman to accept as town roads, any road which may be completed during the year which have been approved by the Town Planning Board, constructed in accordance with required specifications and approved as to construction by the Town Road Agent and as to which the land on which such roads are located is properly deeded to the Town. Such approval by the Selectmen, Road Agent and Planning Board Chairman shall be recorded with the Town Clerk.

ARTICLE 13. To see if the Town will vote to authorize the Board of Selectmen to apply for, accept and expend money from State, Federal, or other governmental unit or a private source which becomes available during the year in accordance with the procedures set forth in RSA 31:95-b.

ARTICLE 14. To see if the Town will vote to authorize the Selectmen to transfer tax liens and convey property acquired by the Town by tax collector's deed by advertised sealed bids, or in such manner as determined by the Selectmen as justice may require.

ARTICLE 15. To see if the Town will vote to raise and appropriate a sum not to exceed \$1,500 for the purchase and installation of two (2) dry hydrants. The location of said hydrants to be at the discretion of the Fire Chief.

Recommended by the Budget Committee

ARTICLE 16. To see if the Town will vote to raise and appropriate a sum not to exceed \$6,600 for the purchase and installation of an emergency generator for the fire station.

Recommended by the Budget Committee.

ARTICLE 17. To see if the Town will vote to raise and appropriate a sum not to exceed \$1,500 for the purpose of clearing brush and expanding the parking lot at Sunset Field.

NOT Recommended by the Budget Committee

ARTICLE 18. To see if the Town will vote to authorize the Selectmen to appoint the Highway Agent in accordance with RSA 245:6.

ARTICLE 19. To see if the Town will vote to raise and appropriate the sum of \$416 to Greater Portsmouth Community Action Center, a subdivision of Rockingham Community Action Program, Inc., a private non-profit, anti poverty agency. This figure represents 2.5% of \$16,657 in services rendered to Greenland residents during the fiscal year 9/1/80 - 8/31/81. (Submitted by petition of Helen O. Dowling, and others.)

Recommended by the Budget Committee

ARTICLE 20. To take any other action that may legally come before the meeting.

Given under our hands and seal this nineteenth day of February in the year of our Lord, nineteen hundred eighty two.

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

January 15, 1982

The Directors of the Lamprey Regional Solid Waste Cooperative are pleased to report that the incinerator recovery plant is in operation and producing steam for the University of New Hampshire on a regular 24-hour, 7-day a week schedule. Since reporting to you at the time of your 1981 town meetings, your Directors are able to record substantial accomplishments in the completion of the plant's construction and in placing it in operation in accordance with our long range plans.

The supervision of all operations, including personnel, as well as the preparation of budgets, and overall management, is under the direct control of the Cooperative's Administrator, with the three-member Operations Committee from the Joint Board of Directors exercising general supervisory control. The plant personnel, in addition to the Administrator, includes two mechanics, a truck driver, two daily shifts of 12 hours each involving 8 persons, plus a daily cleanup crew. This organization operates the incinerator system, maintains records, and coordinates with the University's Power Plant staff to monitor the boiler and steam production elements of the plant. The Cooperative's organization also handles the collection of refuse from the transfer stations of five communities, and handles the ash removal and its transfer to the landfill site.

The waste delivery program for the towns in the Cooperative, including both community owned packers and commercial haulers, has been organized for efficient and continuous delivery of waste with all units being weighed on the Cooperative's scales, with tonnage recorded for billing of the tipping fee to each community. To assist all the communities in the collection and delivery program, a series of instructional memorandums were prepared including a complete set of guidelines detailing processable and non-processable waste, i.e., that which can be handled at the plant and that which must be disposed of at the regular dump sites. This latter item, of course, includes brush, construction materials, and other non-organic material. Further, a punch card system enables each community to assign deliveries to either their own vehicles or contract haulers. Guidelines were also developed and issued to all hauling units with instructions for delivery, dumping, and emergency procedures. We have made arrangements with a commercial landfill operator to handle our waste in the event of a major shut-down of all units at the plant.

The Directors, on December 10, 1981, held a public hearing on the Cooperative's proposed budget, which has now been adopted and the appropriate share of each member community for inclusion in their individual budgets.

Two additional programs have been initiated during the past year. These programs, which were noted in the 1980 report, include a CEIP grant of \$18,000, being administered by the State's Department of Energy, and which has now been approved for a study of potential alterante uses of energy from steam, particularly during the summer months when the University's steam demand is much reduced. Another program which is just developing is the possible selection of the Lamprey Cooperative to store and dispose through incineration the oil spill debris which may result from oil spill contamination on our coast, or even our inland waterways.

The Directors were also pleased, this last year, to have the City of Somersworth join the Cooperative as a full member, bringing the additional waste generated by that community, which was needed to round out our potential capacity for incinerating waste and producing steam.

We are still working with all of the communities and the University in eliminating glass from the waste stream because of the net savings that will result by eliminating hauling it to the plant and processing it through the system.

The Directors of the Cooperative wish to express their deep appreciation for the assistance given their efforts by the University staff as well as the officers and personnel of the cooperating communities. Every effort will be continued to keep the residents of the region informed of the progress of the collection, processing, and disposal of the waste which is being handled at the plant.

Joint Board of Directors
Lamprey Regional Solid Waste
Cooperative

RECREATION COMMISSION REPORT

The 1981 town recreation program organized and directed by the Recreation Commission was a huge success.

Over 90 boys and girls age 7 to 17 participated in organized baseball and softball on eight different teams. From all reports that we have received they all had a swell time. We are especially proud of our travelling little team Nike because for the first time that I know of they won the championship of the Seacoast league.

"CONGRATULATION"

Job well done Nike

Also thank you Coach Bob Kuzma

The Commission would like to thank all the coaches, managers, game officials and coordinators for their unselfish and devoted time which they gave to us and all the children in the Town of Greenland. Without you all this would not be possible. We would also like to thank the parents of the children for their help and support in recreation.

This spring we hope to enlarge the parking area at Sunset Field and grass the side of the hill near the cemetery. I received letters of appreciation from Nike, Data General, Sylvania, Rich's thanking us for the use of our field. Also a letter of thanks from the City of Portsmouth for letting them use the field for their Men's Softball State Tournament.

As you can see Sunset Field was used every night and weekends by local softball and baseball teams. We are very proud of our field. Thank you Town of Greenland for this.

I would like to thank Jim Hayden for helping us oversee, mow and clean the tennis courts for us. Thanks, Jim.

As in the past a big, big Thanks goes out to Jan Goeddeke for her time and effort and all organized mothers, who helped Jan keep both fields running. Thanks Jan. See you in '82'.

We wish to thank all the townspeople for their help, support and confidence they have in us in trying to bring good, clean and healthy recreation to our children.

All of us hope you will continue to show your support in us and your children.

It's not important if you win or lose, it's how you play the game.

See all of you in '82'.

Thank you all again:

Bob Krasko, Chairman
John Haslam
Jan Goeddeke
Jane Rappolt
Duncan Brackett

SUMMARY OF RECREATION COMMISSION 1981

Ground-keeping	867.77	
Equipment Permanent	1,648.48	
Supplies	253.74	
Electricity	<u>71.32</u>	
		\$5,136.08

THE GREENLAND SUMMERFEST COMMITTEE REPORT

The 4th Annual Summerfest has once again proven the popularity of the event. Each year since its inception participation has increased and 1981 was no exception.

With a theme of "Something for Everyone" the weekend began Friday evening. A chicken B-B-Q in the school gym was followed by Beano, while outside under the tent an auction was held along with the presentation of the "Citizen of the Year" award to Frank Richards by the Greenland Jr. Women's Club. Across the street at the Parish House a Walt Disney family movie and cartoons were shown.

Saturday morning offered a pancake and sausage breakfast at the Parish House, then another fine hour long parade.

The Street Fair, with its arcade and numerous food and craft booths, marked the return of the childrens' events. This afternoon long program offered prizes and surprizes for young and old. Simultaneously in the tent Ralph Morang of Rye presented an antique tool display and demonstration and Beano was conducted in the school gym. As in the past, Firetruck rides by the Fire Department were a popular attraction. The 2 mile road race was well attended with prizes awarded by age group, time, and mens and womens divisions. To cap off a hectic day, many chose to unwind at the street dance in the tent on the green that evening.

Sunday afternoon, at Sunset Field, the pie eating contest was held. After a brief clean-up spectators saw a softball game in which the Town Officers and Summerfest Committee played. That evening, at the Family picnic on the green, entertainment was provided by "Brownie MacIntosh and the Apple Cider Band".

The Summerfest Committee wishes to express their thanks to the towns people for their support and participation over the years. The Committee is comprised of any and all Greenland citizens who wish to donate their time, effort and ideas in planning and/or executing of the annual event. Meetings are held in the Town Hall on the last Friday of each month at 7:30 PM.

This report is respectfully submitted on behalf of the Greenland Summerfest Committee

Selectmen
Town of Greenland
New Hampshire

Gentlemen:

I have examined the financial statements of the Town of Greenland, New Hampshire for the year ended December 31, 1980. As a part of my examination I made a study and evaluation of the Towns' system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards the purpose of such evaluation is to establish a basis of reliance on the system of internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

My study and evaluation of the system of internal accounting control was made for the purpose set forth in the paragraph above and accordingly would not necessarily disclose all weaknesses in the system because it was based upon selective tests of the accounting records and related data. As a result of this study and evaluation I have noted no particular areas where improvements can be made to strengthen the system of internal accounting control.

At this time I wish to thank the Town Officials, especially Mrs. Shirley Hoonhout, Mrs. Edna Weeks and Mr. Duncan Brackett for the cooperation and courtesy shown my staff during the course of the engagement.

Irene R. Lebel

Selectmen
Town of Greenland
New Hampshire

I have examined the financial statements of the various funds of Greenland, New Hampshire for the year ended December 31, 1980, as listed in the foregoing table of contents. My examination was made in accordance with generally accepted auditing standards, and accordingly included such test of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets, and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

In my opinion the financial statements listed in the aforementioned table of contents present fairly the financial position of such funds of Greenland, New Hampshire at December 31, 1980, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

SEE ACCOMPANYING NOTES TO FINANCIAL STATEMENTS

TOWN OF GREENLAND, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1980

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Accounting

The diverse nature of governmental operations and the necessity of determining compliance with legal provisions requires modification of accounting systems commonly used by commercial enterprises. Rather than establishing a single unified set of accounts to record and summarize all financial transactions, the accounts of the Town are organized on the basis of funds, each of which is considered a separate entity with self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures, including obligations and transfers.

All funds included in the financial statements are reported on the modified accrual basis. Under the modified accrual basis of accounting, revenues are recorded when received in cash except in cases where they are both measurable and available and therefore are resources which may be appropriated. Expenditures are recorded when certain goods or services are received and actual liabilities are incurred.

Fixed Assets

The Town does not maintain a record of its general fixed assets and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report. Expenditures for capital assets are charged off in the year acquired.

2. APPROPRIATED FUND BALANCE

The appropriated fund balance of the general fund represents the unexpended balances of current and prior years special appropriations for the following purposes:

Salt shed	\$ 1,930
Highway maintenance	<u>9,518</u>
	<u>\$11,448</u>

3. GENERAL LONG TERM DEBT

General governmental liabilities for the retirement of long-term debt are accounted for in the general long-term debt group of accounts. Amounts due in future periods are provided by appropriation and become part of the funds raised through taxes. The Town's obligation on December 31, 1980 consist of:

3. GENERAL LONG TERM DEBT (Cont.)

5.35% note payable, unsecured,
interest due semi-annually,
principle of \$13,865 due
annually through
November 1983. \$ 41,595

7.0% note payable, unsecured
interest due semi-annually.
Principle of \$45,600 due
annually through
November 1985. 228,000

\$269,595

4. TRUST FUNDS

Trust Funds at December 31, 1980 comprise the following:

1. Cemetery Funds: Established by numerous donors in the form of perpetual care funds for the purpose of maintaining burial lots.
2. Library Funds: Established by various donors for the purpose of purchasing books, supplies, and building maintenance of the Weeks Public Library.
3. Sidewalk Fund: Established by bequest for the purpose of maintaining the sidewalk within 200 feet of the Weeks Public Library.
4. School Fund: Established by bequest for the purpose of defraying cost to the school department.

5. CONTINGENCIES

Public Service Company of NH (PSC) has protested the method by which it was assessed for property tax purposes. PSC believes its assessment should be its net book value. The Town, however, assesses it as approximate market value (the same method as the rest of the Town).

PSC has protested its assessments since 1973. The New Hampshire Supreme Court (Docket No. 7535) has denied such protests through 1975. The hearing before the State Board of Taxation for the 1976 and 1977 protests is pending. The protests of 1978, 1979 and 1980 have no action taken at the present time.

MINUTES OF
SCHOOL DISTRICT MEETING - MARCH 7, 1981

At a meeting of the Greenland School District held at the Greenland Central School on March 7, 1981, at 8:00 p.m., Moderator, Robert Steuk, called the meeting to order. The invocation was given by Rev. Evans. Mr. Steuk introduced the School Board, Mr. Jerome Hyatt, Mr. John Stocker, Mr. Herbert Wilson; Colleen Smith, School Clerk; and Frances Thompson, Treasurer.

The legal voters present voted on the following articles after the reading of the Warrant by Mr. Steuk.

ARTICLE I - Motion made by Mr. Hyatt and seconded by Mr. Gouzoules to hear the reports of Agents, Auditors, Committees or Officers heretofore chosen, and pass any vote relating thereto. Vote in the affirmative.

ARTICLE II - Motion made by Mr. John Stocker and seconded by Mr. Philip Rowe to see if the District will vote to authorize the School Board to receive and expend on behalf of the District any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire or any agency thereof, the United States Government or any agency thereof, or any private agency. Vote in the affirmative.

ARTICLE III - Motion made by Mrs. Beth Rolston and seconded by Mrs. Paula Sargent to see if the District will vote to begin a public kindergarten program and to raise and appropriate the sum of \$15,000 for this purpose for the 1981-82 school year. Mr. Rolston amended the motion to read: contingent upon space available in Greenland School as determined by Greenland School Board if space is not available we ask that no money be expended; seconded by Mrs. Carol Hawkins. At this point there was a lengthy discussion by Mr. Rolston, Mrs. Deborah Brown, Mr. Richards, Mrs. Shupe, Mr. Peterson, Mr. O'Keefe, Mrs. Salem, Mr. Wilson, Mr. Stocker, Mr. Rowe, Mrs. Rolston, Mr. Olmstead and Mr. Collins:

Question: How would children get to and from school?

Answer: If space is available they would ride on the bus, if not, parents would provide transportation.

Question: What is the availability of a classroom in the School?

Answer: Mr. Wilson- "...cannot commit the school for space at this time."

Question: Mr. Rolston - Would cost of kindergarten be incorporated in the school budget after this year?

Answer: Mr. Wilson - it would be included as a warrant article next year.

Question: Mr. Rolston - Are any supplies for kindergarten class available?

Answer: Mr. Rowe - some supplies are, but would still need special materials.

Mr. Richards moved to vote on the amendment; seconded. Vote on the amendment to the article was 74 in favor of and 36 against. Vote in the affirmative. Vote on Article III as amended was 51 in favor of and 71 against. Motion was defeated.

ARTICLE IV - Motion by Mr. Jerome Hyatt and seconded by Mrs. Roselee Stocker to see if the District will vote to raise and appropriate the sum of sixteen thousand dollars (\$16,000) for the purpose of accomplishing energy conservation measures at the Greenland Central School contingent upon a commitment of 50% federal funding. Mr. Hyatt explained that the 50% would be raised by taxation and 50% by government grants. Mr. Dowling amended the article to read that the District appropriate \$8,000 to be raised by taxation and to authorize the School Board to expend \$6,000; seconded by Mr. Rolston. After the explanation of the Article by Mr. Steuk, the amendment was withdrawn. Vote on Article IV as read was in the affirmative.

ARTICLE V - Motion made by Mr. John Stocker and seconded by Mr. Joseph Goeddeke to see if the District will vote to authorize the establishment of the position of Business Administrator for School Administrative Unit No. 50. Mr. Stocker explained that the present staff accountant would become Business Administrator. Vote in the affirmative.

ARTICLE VI - Motion made by Mr. Harry Dowling and seconded, to raise and appropriate the sum of \$966,000 for 1981-82 for the support of schools, for payment of salaries, for obligations of the District, and to authorize the application against said appropriations of such sums as are estimated to be received from the State equalization fund together with other income, the School Board to certify to the selectmen the balance between estimated revenue and the appropriation, which balance is to be raised by taxes by the Town. Vote in the affirmative.

ARTICLE VII - Mr. Herbert Wilson presented Mr. John Stocker with a plaque in recognition of work that Mr. Stocker has done during his term as a School Board member and the appreciation felt for his work as he retires from the School Board.

A motion was made by Mr. David Richards and seconded by Mr. Bradley Akerman, to adjourn the meeting.

Officers elected at the annual Town Meeting held on March 12, 1981 at 8:00 p.m. are as follows:

Moderator:	Robert L. Steuk	437
	Donald Casey	1

ELECTION OF OFFICERS

1982

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District of the Town of Greenland in the County of Rockingham and State of New Hampshire, qualified to vote upon District Affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE GREENLAND CENTRAL SCHOOL IN

SAID DISTRICT ON TUESDAY, THE 9TH DAY OF MARCH 1982 AT 10:00 O'CLOCK

IN THE A.M. TO VOTE FOR DISTRICT OFFICERS:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose one member of the School Board for three years.

POLLS WILL NOT CLOSE BEFORE 6:00 P.M.

The foregoing procedure calling for election of your District Officers at the Annual Town Meeting is authorized by statute (RSA 197: 1-a) and was adopted by the District at its 1966 annual meeting.

GIVEN UNDER OUR HANDS AND SEALS AT SAID GREENLAND THE 17th DAY OF
FEBRUARY 1982.

GREENLAND SCHOOL DISTRICT WARRANT

ELECTION OF OFFICERS 1982

THE STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE SCHOOL DISTRICT OF THE TOWN OF GREENLAND IN
THE COUNTY OF ROCKINGHAM AND STATE OF NEW HAMPSHIRE, QUALIFIED TO
VOTE UPON DISTRICT AFFAIRS:

YOU ARE HEREBY NOTIFIED TO MEET AT THE GREENLAND CENTRAL SCHOOL IN SAID DISTRICT ON
SATURDAY THE 6TH OF MARCH, 1982 AT 8:00 P.M. TO ACT ON THE FOLLOWING ARTICLES:

- ARTICLE 1. To hear the reports of Agenst, Auditors, Committees or Officers heretofore
chosen, and pass any vote relating thereto.
- ARTICLE 2. To see if the District will vote to authorize the School Board to receive
and expend on behalf of the District, any or all grants or offers for
educational purposes which may now or hereafter be forthcoming from the State
of New Hampshire or any agencies thereof, the United States Government
or any agency thereof, or any private agency.
- ARTICLE 3. To see if the District will vote to form a Cooperative School District
Planning Committee in accordance with New Hampshire RSA 195 Section 18;
and to authorize the Moderator to appoint three (3) qualified voters,
at least one of whom shall be a member of the School Board, as members
of the Committee; and to charge the Committee with the responsibility of
filing a written report of its progress at the March 1983 Annual
District Meeting.
- ARTICLE 4. To see if the District will raise and appropriate a sum not to exceed
Nine Thousand Dollars (\$9,000) for the purpose of purchasing computer
hardware and software for instructional purposes. (Not recommended
by Budget Committee)
- ARTICLE 5. To see if the District will raise and appropriate a sum not to exceed Eight
Thousand Dollars (\$8,000) for the purpose of repaving the parking lot and
driveway, approximately one-third of total area, at the Greenland
Central School. (Recommended by Budget Committee)
- ARTICLE 6. To see if the District will raise and appropriate a sum not to exceed
Four Thousand Dollars (\$4,000) for the purpose of replacing floor tile
at the Greenland Central School. (Recommended by Budget Committee)
- ARTICLE 7. To see what sum of money the District will vote to raise and appropriate
for the support of schools, for payment of salaries, for obligations
of the District; and to authorize the application against said appropriations
of such sums as are estimated to be received from the State equalization
fund together with other income, the School Board to certify to the
Selectmen the balance between estimated revenue and the appropriation,
which balance is to be raised by taxes by the town.

ARTICLE 8. To transact any further business that may legally come before the meeting.

GIVEN UNDER OUR HANDS AND SEALS AT SAID GREENLAND THIS 17th DAY OF FEBRUARY, 1982.

A true copy of Warrant - Attest: /s/ Jerome Hyatt

REPORT FROM THE SUPERINTENDENT
DANIEL C. DURGIN

Public education presents constant and significant challenges to all who are connected with it. Declining enrollments and the struggling economy demand that school boards and administrators continually seek creative methods of maintaining quality education while holding the line on costs.

Let me assure you that your school board and administrators are doing everything within their power to seek a reasonable balance between the diminished ability to pay of many of our citizens and the need to maintain a responsive instructional program for our students. This is becoming an increasingly difficult task and requires constant vigilance and informed planning.

Smaller districts that are experiencing an enrollment decline are researching alternatives to their present structure in the face of rising per pupil costs. Several alternatives exist. Among them are: (a) modify the program and reduce staff, (b) close the school and seek an agreement with a neighboring school district to educate the students on a tuition paying basis, (c) form a joint school organization with one or more neighboring communities.

The latter alternative is currently being explored by two of our districts as a method of combining the resources of individual school districts resulting in a single district with an expanded tax base and greater resources. Extensive research and study must occur prior to districts taking such a crucial step but the alternative is real and worthy of consideration.

The administration and staff of our four school districts continue to strive to maintain the relevancy and quality of our instructional programs. Last year I was pleased to report to you the establishment of curriculum committees in mathematics, language arts, science and social studies. In June, 1981, a grant application was submitted seeking funds to allow the planning and development of a written curriculum in mathematics and language arts, grades one through eight. On July 2, we received word from the Department of Education that our application had been approved. Five representatives from the Mathematics Curriculum Committee spent many hours last summer reviewing, updating and formalizing our mathematics curriculum for all grades. This has been completed and has received the approval of the school boards.

This past fall the very same task was undertaken by our Language Arts Committee. As of this writing, they have completed the writing of the program and are in the process of reviewing the product with the teaching staff. Once this step has been completed, it will be presented to the joint School Administrative Unit Number 50 School Board for their approval.

Any remaining funds from the grant will be used to begin a review of our science and social studies programs. It is my hope that we can also produce a formal, updated guide in these subject areas in the near future.

One of our more recently reorganized challenges in education involves meeting the needs of the gifted child. In the fall of 1980 a committee was formed comprised of parents, a school board member, a principal, a reading consultant, a guidance counselor and teachers. The Superintendent also attended in an advisory capacity. The Committee held meetings throughout the 1980-81 school year with the expressed goal of developing a plan for a School Administrative Unit Number 50 Gifted and Talented Program. Committee members soon found that individual ideas and opinions were not always shared by colleagues and considerable compromise was necessary in order to arrive at a plan which had the support of all. But members discussed their positions, compromised where necessary and drafted a sensible and appropriate plan. The School Administrative

Unit Number 50 School Board has unanimously endorsed the plan and it is currently being used as a guide in each of our four school districts.

Finally, let me repeat an invitation that I extended last year to visit your schools and let us know your feelings regarding the quality of education being provided. We do listen and respond to constructive criticism. It often sharpens our focus on situations that need attention and it gives us important feedback that we might not otherwise receive. Obviously, we also enjoy the compliments when appropriate.

In an age when public education is under more pressure than ever before, your interest and support is vital.

PRINCIPAL'S REPORT

After a long summer the doors opened at Greenland School on Tuesday, September 8, 1981. Two hundred seventy-five students attended. This figure was down from two hundred ninety-seven students the previous year. We graduated fifty-two eighth graders and only had thirty new first graders. Several families moved from Greenland which accounts for the additional loss. Because of fewer students and several retentions, we had only one grade two of twenty-one students.

As happens every year we began the year with several new personnel. Steve Guerrero replaced Mark Blythe for grade 7-8 science. Mr. Guerrero had previously taught in Exeter. Frances Morse replaced Leah Lincoln as speech teacher. Karen Cissell took over in the Resource Room. John Walker, physical education teacher, replaced Bruce Butterworth.

Nancy Fortier went on maternity leave in November and was replaced by Peter Price in grade 7-8 social studies. Melanie Lovering took over for Frank Lyons in guidance after his resignation. Nancy Emerson moved from teaching grade two to grade one aide and Title I Director. Karen Baker, grade three teacher in 1980-81, is working with Jari Ford team teaching the other grade three.

Three staff members returned from maternity leave in 1980-81; Janet Whitehouse, grade three, Sharon Musselman, grade one, and Kathy Bean, grade one. Mrs. Bean had previously taught grade two at Greenland School. Louise Clements returned to her grade four position after a half year leave of absence.

Most staff members at Greenland School are involved in SAU #50 curriculum studies. The Math Committee worked this past summer and fall to draw up indicators and outcomes. Their study is in its final stages. The Language Arts Committee is presently meeting. The science and social studies will begin to meet shortly. The Talented and Gifted Committee, which worked all of last year, has had their report accepted by the SAU #50 local boards. The teacher workshop held on Friday, January 29, was devoted entirely to this subject.

Probably the most significant change at Greenland School this year has been the new demerit system. The system was studied during the summer and implemented in September. Eighteen infractions were identified with points assigned each. Parent/Principal conferences are held when students reach five-ten-fifteen-twenty demerits. A one-day, in-school suspension results from ten demerits, three-day for twenty. There have been a few problems with the system, but for the most part it has been a great success. The three most positive aspects of the system have been identifying problem students, school/parent communications, and more time for classroom teaching.

As stated in last year's report, a good school system needs many ingredients for its success. We have these ingredients. We begin with an excellent teaching staff, backed up by specialists. We have supportive and concerned parents. The Superintendent and his support staff are the control center. The School Board formulates policy and controls the budget. The secretary, nurse, and librarian supplement the curriculum and students. The custodians and cafeteria keep the school clean and students' appetite appeased.

We thank the many concerned parents for their help with school functions, the Greenland Junior Women's Club for their donation of time, and finally the students from whom we receive so much pleasure watching them grow to be productive citizens of our society.

Philip H. Rowe
Principal

REPORT OF GUIDANCE COUNSELOR

Because of my recent mid-year appointment, I do not have the usual yearly report. However, I would like to take the opportunity to elaborate on my plans for providing the school counseling needs of Greenland Central School.

Individual remedial counseling is what is usually thought of when one thinks of the role of a guidance counselor. In addition, parent and teacher consultations will be available. I am currently counseling several student groups. In these groups we work on activities dealing with such issues as values clarification, career planning, and social interaction skills.

I have developed various group activities for the classroom. Each classroom program has four activities which take place once a week. The varying topics will include self-awareness, social skills, and decision making strategies. Five such programs are currently planned for implementation later this year.

Finally, an essential part of my services will include being a member of the Pupil Placement Team. I am meeting with parents, teachers, and support personnel in seeing to the needs of the special education students.

I would like to take this opportunity to thank Mr. Rowe and the entire staff for the warm welcome they have afforded me. I sincerely look forward to working with this staff of professional educators.

Melanie Lovering
Guidance Counselor

NURSE'S REPORT

Along with the opening of school in early September, came the excitement of the new sport season. Physical exams are required yearly for all 5-8 grade students who plan to participate in all sports. Forty-two physicals were done by Norma Brindamour, A.R.N.P., a nurse practitioner from the Exeter Clinic on September 15 & 16, 1981.

The yearly health screenings, which include height, weight, vision, dental, and blood pressure checks, were done early in October with the assistance of volunteers from the Greenland Junior Women's Club. Follow-ups and referrals were done on all problems found during this screening. Again, my sincere thanks to the Juniors who helped to make this part of the school health services more efficient.

The Preventive Dental Program, which involves instruction in proper brushing, flossing, and nutrition, was initiated in early October in grades 1-6 by two dental hygienists from the N.H. Bureau of Dental Health. This is being carried out in the classrooms by the teachers who supervise brushing daily and the flouride rinse weekly. The hygienists will return in late Spring for individual follow-up examinations. Another phase of the preventive dental care at Greenland School is the cleaning and application of flouride. This was done by Sheila Siener, Registered Dental Hygienist, selected by the N.H. Bureau of Dental Health for all students desiring this service during the weeks of January 18 & 25, 1982.

Updating and audit of immunizations for the State Department of Education of all students are done continually during the school year.

The Greenland Student Association Safety Committee was again formed in October with 18 junior high students. Their duties are delivering messages, record keeping, assisting with health screenings, cleaning, and organizing the nurse's office and promoting school safety. The School Safety Program includes the Bike Rodeo in late Spring. The assistance of the students, the Juniors and Chief Gilbert is much appreciated as this is a worthwhile activity.

Postural screenings were done in January on students grades 4-8. Referrals were made when needed. Hearing screenings and referrals are done on all students in grades 1,3,5,7, & 8, and those requested by teachers and parents.

The Pre-School Vision and Hearing Screenings are to be done on April 3. This service is done every Spring under the supervision of the N.H. Vision and Hearing Department of Public Health Services.

The nurse's office is a resource area for students who are studying health, nutrition, and medicine during science and health classes. I have enjoyed being involved with the student health education.

I am pleased to be a part of the team conferences with teachers, parents, and special education staff to interpret and plan individual education programs.

I wish to extend my thanks to the Greenland School staff, parents, and students for their continued support in the school health services.

Dorothy Steere, R.N.
School Nurse

To the School Board
Greenland School District
Greenland, New Hampshire

I have examined the financial statements of the Greenland School District for the year ended June 30, 1981, as listed in the foregoing Table of Contents. My examination was made in accordance with generally accepted auditing standards, and accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In my opinion the accompanying financial statements, present fairly the financial position of the Greenland School District as of June 30, 1981, and the results of operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with the preceeding year.
